Sodium Metasilicate	Disodium Metasilicate	6834-92-0	34%
Sodium Tripolyphosphate	Triphosphoric Acid, Pentasodium Salt		

Severe respiratory irritation.

In case of fire: Use water, foam, chemical extinguisher or carbon dioxide.

Sodium oxides, silicon oxides

Wear chemical resistant protective equipment and self contained breathing apparatus (SCBA).

Wear appropriate chemical protection equipment such as gloves, face-shield, goggles and suitable body protection to prevent contamination of skin, eyes and personal clothing.

If trained in accordance 29 CFR 1910.120, leaks should be stopped. Spills should be contained and cleaned immediately. Persons performing clean up work should wear adequate personal protective equipment and clothing. Spills and releases should be reported, if required, to the appropriate local, state and federal regulatory agencies.

Wear rubber protective gloves, chemical protective clothing, eye protective goggles and face shield for face protection.

Store in well ventilated place. Keep container tightly closed.

Sodium Metasilicate	not established		
Sodium Tripolyphosphate	not established		
Sodium acid pyrophosphate	ACGIH	10 mg/m3 (inhalable)	-

Local exhaust is required to remove mist.

A respiratory protection program that meets OSHA 29 CFR 1910.134 and ANSI 788.2 or applicable federal requirements must be followed whenever work place conditions warrant respirator use. NIOSH's Respirator Decision Logic" may be useful in determining the suitability of various types of respirators.

Rubber gloves, chemical goggles or protective eyewear, boots, aprons & hard hat if in contact

Wear chemical safety goggles with face shield.
